I. Product description

A wireless presenter with built in mouse features. You can easily control the mouse-pointer while doing your presentation. With an easy to reach button on the side you'll be able to mark areas of your PowerPoint presentations to make it easier for your audience to follow. Apart from these functions, thanks to the laser pointer and RF technology, you'll be able to manage your presentation within 50 meters.

II. Features

- 1) PowerPoint, Keynote and Prezi support
- 2) Thanks to the ISM-free 2.4GHz or 868MHz frequency, this presenter can be used worldwide without restrictions.
- 3) The omnidirectional emitter allows the control of devices in other rooms.
- 4) One transmitter can control up to 6 USB receivers.
- 5) Supports the following functions: laser pointer, page up/down, full screen, black screen, and mouse

function.

6) Support hyperlink function in PowerPoint

7) Volume control via side button

8) The LED flashes when battery is low.

9) The receiver can be inserted into the presenter's housing.

10) USB2.0, plug and play.

11) Energy-saving with auto standby and on/off switch

12) Power supply via 2pcs AAA battery, easy to replace.

III. Operation system

Support Windows 7/8/10/11 and macOS 10.15 or later, only support laser and page up/down on Android & Linux.

IV. Package contents

1) Wireless presenter (USB receiver included) x 1

2) User Manual x 1

3) AAA batteryx2

V. Specifications

Transmitter

Technology: Radio Frequency

Frequency: 2.4GHz(N89)

Frequency: 868MHz(N89M)

Control Distance: 50m

Laser Power: <1mW (Class 2) or <5mW (Class 3R), see the laser label on the back of the presenter.

Laser Distance: >200m

Wavelength: Red 640-660nm

Wavelength: Green 495-545nm

Battery: AAx2pcs

Working Voltage: 3V

Sleep Current: <30uA

Dimension: 132mm*33mm*13.5mm

Weight: 35.6g

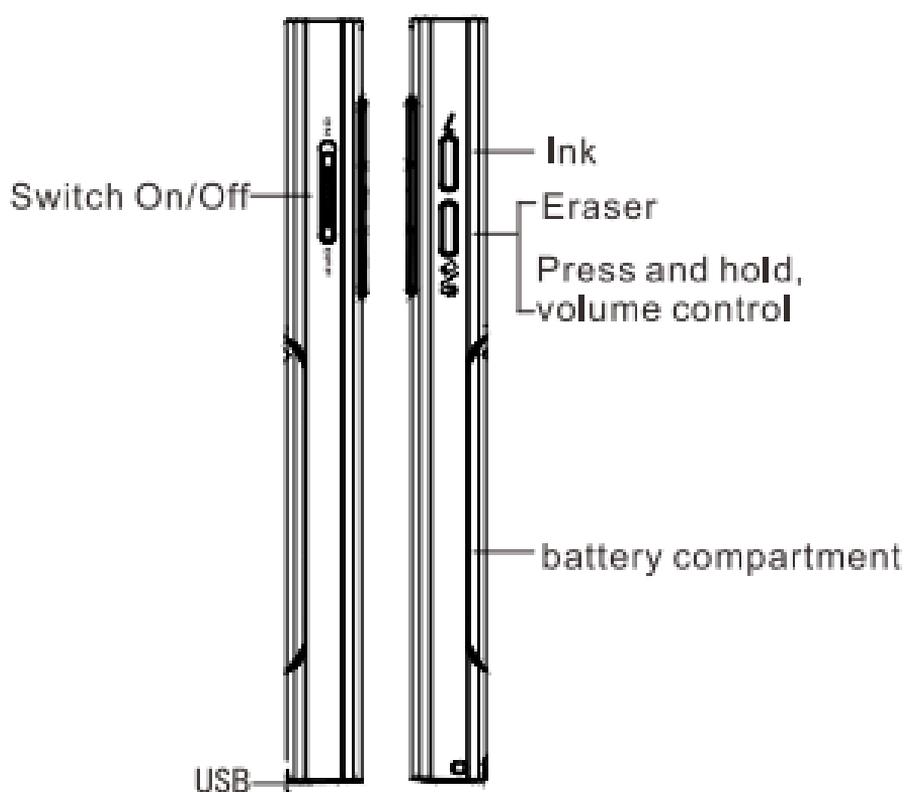

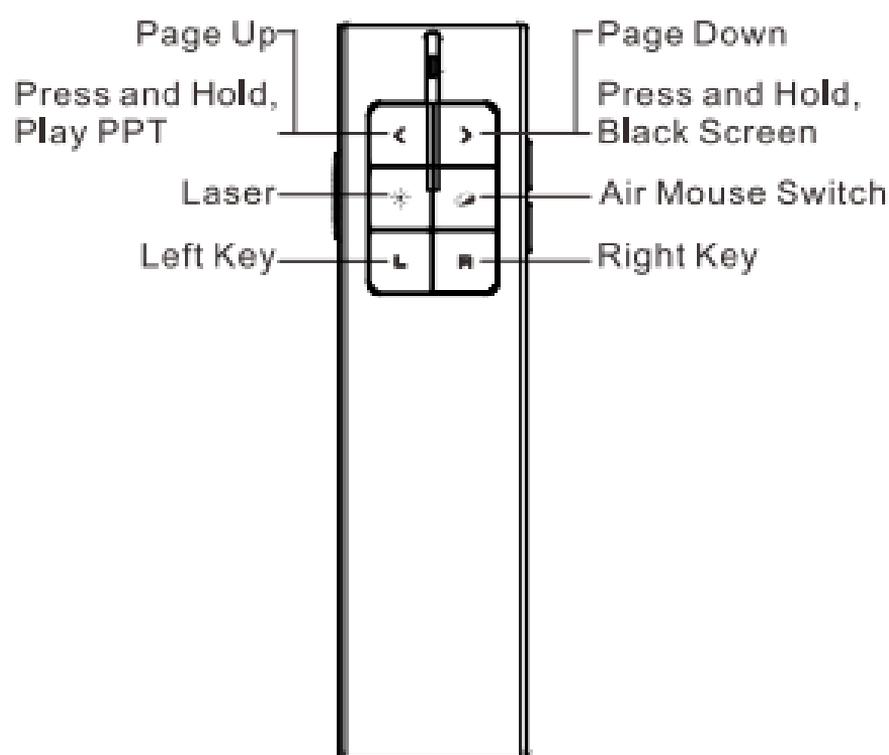

USB Receiver:

Working Voltage: 4.5-5.5V

Dimension: 22.7mm*14mm*7.6mm

Weight: 2.16

VI. Function Map

Press the buttons to operate the wireless presenters

4. Turn off the power switch

Plug the USB receiver into the transmitter after use and turn off the power switch to save energy:

IX. Frequently Asked Questions

1. How to know the battery is out of power?

If the blue LED on the wireless presenter starts to flash slowly, it means the power is low.

2. Why does the laser pointer not work?

First, you can check whether the wireless presenter is in low power or out of power. If the LED flash slowly, it means the power is low and the battery needs to be replaced. If all the other

buttons can work, only the laser pointer cannot work, the laser diode may need replacement.

3. When the Mini USB receiver plugs into the PC's USB, the laptop does not detect the device, why?

Please try another USB port or another PC.

4. How to adjust the settings for Norwii Presenter on macOS?

On Apple's macOS, the Norwii Presenter software requires three permissions: Accessibility, input monitoring, Screen & System Audio Recording. If it has not been set before, please click "Grant Permissions" in the "About" tab of the Norwii Presenter software, and then open the corresponding permission settings in the window that opens. You can also check the box in front of the Norwii Presenter software in the above three permission settings in the "Launchpad - System settings - Privacy & Security - Accessibility,

input monitoring, Screen & System Audio Recording" of macOS.
